No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information storage and retrieval system, without permission in writing from the copyright owner.

The appearance of the code at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on the condition, however, that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (21 Congress Street, Salem, Massachusetts 01970), for copying beyond that permitted by Sections 107 or 108 of the U. S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Copy fees for pre-1980 articles are the same as those shown for current articles.

## CONTENTS OF VOLUME 35

### Number 1, March 15, 1980

EJANDRO L. CAMERLENGO AND JAMES J. O'BRIEN. Open Boundary Condi-	1
tions in Rotating Fluids.	12
DAVEY. On the Numerical Solution of Difficult Boundary-Value Problems.	36
H. WILLIAMSON. Low-Storage Runge-Kutta Schemes	48
CHAEL B. CARVER. Pseudo Characteristic Method of Lines Solution of the	
Conservation Equations	57
Gas into a Near Vacuum.	77
H. Lim. An Integral Equation Method for the Numerical Solution of a	11
Two-Dimensional Vertical Jet under Gravity.	90
TA MEYER-SPASCHE AND HERBERT B. KELLER. Computations of the Axi-	
symmetric Flow between Rotating Cylinders	100
SCHNACK AND J. KILLEEN. Nonlinear, Two-Dimensional Magnetohydro-	
dynamic Calculations	110
